MAZOON
AEROSPACE

COMPANY PROFILE

TAILORED TO YOUR NEEDS

Aviation, tailored to your needs.

We keep aircraft flying, businesses growing and new ideas taking off.

OUR PURPOSE

Every great journey starts on the ground.

Behind every safe departure are people who care about the details. That is who we are.

Mazoon Aerospace brings engineers, planners and advisers together with one purpose: to make aviation safer, smarter and more sustainable for everyone who depends on it.

We work beside airlines, airports, MRO providers, owners and authorities, wherever their aircraft and ambitions take them.

Independent
Privately owned and free to put your interests first.

Experienced
A team drawn from airlines, MROs, airports and regulators.

Connected
A worldwide network of manufacturers, suppliers and partners.

WHAT WE DO

One partner across the aviation value chain.

ENGINEERING & MRO

MRO and technical support

Maintenance planning and oversight from line checks to heavy C-checks, with airline and MRO technical support delivered alongside OEM partners.

- MRO service provision
- Technical support
- C-check oversight
- Airworthiness

FLEET & SUPPLY

Fleet management & parts

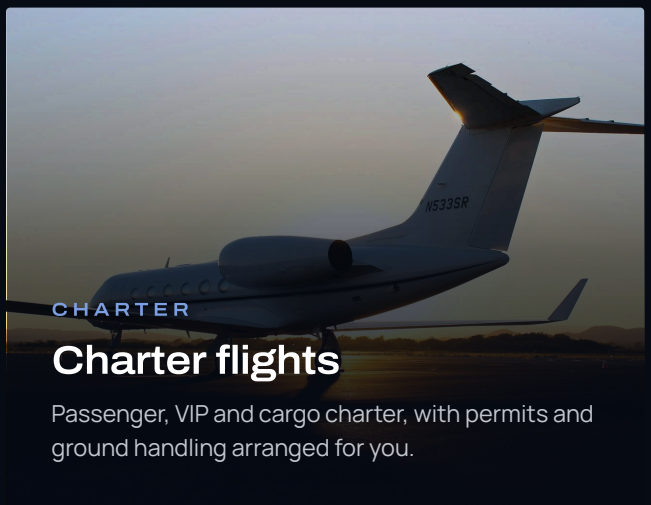

Airworthy aircraft, clean records and leases on track, with parts, tyres and lubricants from a worldwide network.

CARGO

Cargo terminal operations

Terminals that move freight quickly and help airports grow into regional hubs.

CHARTER

Charter flights

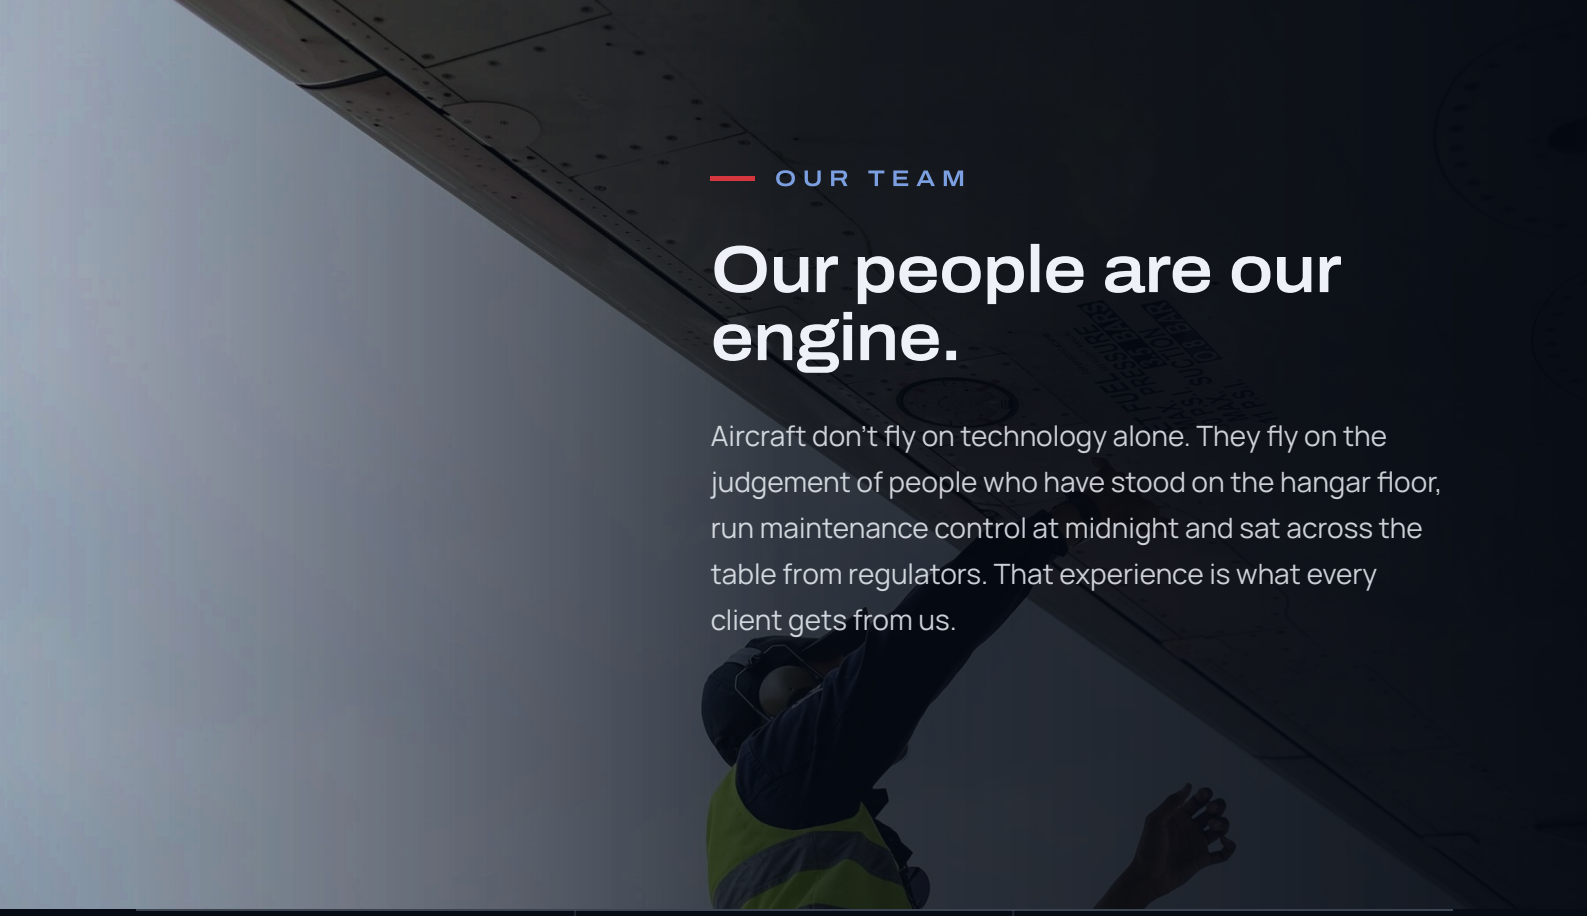

Passenger, VIP and cargo charter, with permits and ground handling arranged for you.

BUSINESS & INNOVATION

Consulting & management

Business consultation, business management and new technology brought safely into service.

OUR TEAM

Our people are our engine.

Aircraft don't fly on technology alone. They fly on the judgement of people who have stood on the hangar floor, run maintenance control at midnight and sat across the table from regulators. That experience is what every client gets from us.

Aircraft engineering Licensed engineers and technicians	**MRO planning** Checks on schedule and under control	**Quality & regulation** Approvals, audits and compliance
Supply chain Parts, tyres and lubricants	**Airport operations** Cargo terminals and charter	**Business strategy** Plans that work in practice

CONSULTING

Advice that works on the ground.

Our consultants and partners have solved real problems for airlines, airports, regulators and MRO providers.

OPS **Operations**
Where strategies go live, costs are produced and revenue is earned. Quick, measurable results.

STR **Management & strategy**
Upgrade your business or launch a new venture with a clear, workable strategy.

PRO **Process optimisation**
Remove waste and delay, and keep the improvements going.

INN **Innovation**
New ideas, technology and aircraft types introduced safely into new markets.

OUR VISION

To be the partner aviation trusts to keep the world flying.

MISSION

To meet our clients' aviation needs in a way that is safe, efficient, environmentally responsible and economically viable, and to leave every operation stronger than we found it.

Safety first

No shortcuts. Every decision starts with airworthiness and people's safety.

Integrity

Honest advice, clear prices and promises we keep.

Client focus

We listen first and tailor every service to the client.

Partnership

One team with our clients and our partners worldwide.

Sustainability

Efficient operations, better for the environment and the business.

Innovation

New ideas and technology that move aviation forward.

FROM OUR FOUNDER

“

Aviation taught me that excellence is never an accident. It is the result of skilled people, honest work and a promise kept on every flight. I built Mazoon Aerospace on that promise, and our team lives it every day: to stand beside our clients, solve what others can't, and help their ambitions take flight.

MA

Mazin Al Shibli
Founder & Partner

We know the market	Global network	Solid business cases	Built for growth
